Compost

Life Force BAM™ (Beneficial Anaerobic Microbes)

Multi-purpose microbial blend

- Create superior compost teaming with beneficial microbes

**Nutrition
Farming®**

APPLICATION RATES:

Crop	Use
Compost Addition	1 L per m ³ . Dilute with water and distribute evenly throughout compost pile (e.g., apply a little to each layer as compost pile is built). Cover compost heap with a secure tarp or similar to create anaerobic conditions. Turn compost at 2 weeks and again at 3 weeks.

INSTRUCTIONS:

Stir well before use. **Do not exceed 1:10 dilution, i.e. 1 L per 10 L of water.** Contains live organisms. Do not mix with fungicides/bactericides, toxic chemicals or soil fumigants. Sanitise spray tank before application. All microbial products should be added to the tank last after all other inputs have been diluted. Ideally, apply in the late afternoon. Do not exceed 60 psi. While handling and applying microbial products protective clothing, gloves and face masks should be worn. Wash hands after use. Compatibility and/or performance cannot be guaranteed when combined with other products. Jar test for compatibility and spray test on small area before widespread use.

Ensure compliance with your quality assurance code of practice regarding the use of microbial products before use.

IMPORTANT:

This is a live microbial product and can naturally contain variable size particles. Screen the product just prior to application to avoid equipment blockages. Not compatible with sulfate based trace elements.

Note: Product in 1000 L tanks may weigh over 1 tonne. Forklift with 2 tonne lifting capacity is recommended.

COMPOSITION

Contains a blend of beneficial anaerobic organisms including phototrophic non-sulfur bacteria and lactic acid bacteria

STORAGE AND HANDLING:

This is a live microbial product and should be used as soon as possible once opened. Product stability cannot be guaranteed after opening. Store in original container in a well-ventilated area. Keep container closed when not in use. This product may weakly off-gas. Avoid direct or prolonged breathing of off-gas. Immuno-compromised persons (e.g. those undergoing chemotherapy) should not handle or be exposed to microbial products. While handling and applying microbial products protective clothing, gloves and face masks should be worn. Contains live organisms. Avoid aerosols generated by aeration. Store in cool, dry place away from sunlight and below 30°C. Contamination of contents may occur at any time after opening and NTS takes no responsibility for opened product not used immediately. **DO NOT FREEZE.**

CONDITIONS OF SALE:

Every care is taken during the manufacture of this product. As no control can be exercised over storage, handling, mixing, application, use, weather, plant or soil conditions, no responsibility or liability for any failure in performance, losses, damage or injuries will be accepted under any circumstances whatsoever.
